**SWIM PROGRAM**

## **ABOUT OUR PROGRAM:**

Our Annual Swim Program provides swim instruction for children who are developmentally disabled and who are not able to participate in community based swim programs due to the limits of their disability.

Each participant will have five swim instruction lessons. All sessions will be individualized to achieve skills at their ability level. Skill levels might range from introduction to the water, to learning actual swim strokes and water safety.

Parents/Caregivers are requested to stay on the premises during their youngster's swim lesson and are encouraged to go into the water with their child. All participants will work with an instructor in a small group.
